

TO WHOM IT MAY CONCERN

I, the undersigned Mrs. Virginie Coutard, project manager at Version Traduite S.L. located in C/ Sequia, 20, 3-4 - Girona - Spain, confirm that Eugene Efremov is working for our company on a long-term project which started in December 2015 and should continue until the end of the year. For this project, we ask Mr. Efremov to translate (more or less every two months) several thousand words from Russian into French and sometimes with short deadlines. The files are technical reports about the construction of a railway line.

The translations provided completely meet our expectations and the ones of our client. We are really pleased with Mr Efremov's work and will, without any doubt, work with him again in the future for this language combination.
